

PROPOSAL: SOCIAL PREFERENCES AND PRODUCTIVITY

Constança Esteves-Sorenson, Assistant Professor, Yale School of Management
<http://www.som.yale.edu/faculty/constancaestevesorenson/index.html>

The work will comprise the following tasks. First, help running two field experiments testing how expectations about wages and wage changes affect workers' intrinsic motivation and productivity. Second, analyzing the data from these experiments. Third, conducting a literature review of academic articles concerning the topics of these experiments. Students must have a good working knowledge of Excel and/or Stata.
