Research Assistant

Richmond Fed is hiring an Research Assistant for the Quantitative Supervision & Research Unit in Charlotte, NC. Can you please send this to BA or MA students in your Economics program and/or post it on your Careers website? With an application, candidates are required to submit a resume (CV), cover letter, and university transcript(s). Applications are reviewed on a rolling basis.

Essential Job Responsibilities include but are not limited to the following:

- Performs economic, financial, econometric, and statistical analyses; organizes data for analysis and writes computer codes using mathematical and statistical software such as Matlab, SAS, and Stata. If required, learns additional software packages and database systems.
- Co-authors analytical work with economists and analysts.
- Performs more general research and analysis on topics related to the economy, financial markets, banking and bank supervision.
- Gathers data and writes documentation of data sources and statistical tests that have been performed on the data.
