Econ 123b. Intermediate Data Analysis and Econometrics

**Day / time:** T/Th 1:00 - 2:15 pm  
**Course Type:** Undergraduate  
**Course term:** Spring  
**Year:** 2018  
**Instructor(s):** Edward Vytlacil

Core Course

Comprehensive and theoretical examination of econometrics, with further exploration of topics covered in ECON 117. A term research project addresses a research question chosen by the student, and involves the application of learned methods to a relevant data set.

Prerequisites: ECON 108, 110, 115, or equivalent; ECON 117; and familiarity with single variable calculus.
