

What happens to my CampusPress website once I leave the University?

Published on Department of Economics (<https://economics.yale.edu>)

What happens to my CampusPress website once I leave the University?

Your CampusPress website will remain active indefinitely. However, your NetID will expire after leaving the University, thus rendering you unable to sign-in to your site to make future updates. Please take the proper steps managing your site before your departure.

You can manage your CampusPress sites in one of many ways to prepare for a site migration. After determining where your new website will reside, consider the following to ensure a smooth transition when migrating to a new website.

- **Exporting Content**

If you want to [export data](#) from your CampusPress site to the new site, you can download all your content to an XML file that can be imported into a new site.

- **Redirect**

You can redirect your site to your new site by using the [Safe Redirect Manager](#) plugin.

- **Site Visibility**

You can change the website settings by configuring [site visibility](#) so only you and Yale super admins can view it by signing in.

- **Site Deletion**

You can [delete the site](#) by using the option under the Admin Tools menu.

For additional assistance, contact [ITS Support](#).
