Environmental Organizing Fellowship

Green Corps is looking for college graduates who are ready to take on the biggest environmental challenges of our day.

Click here to learn more about Green Corps' paid environmental organizing fellowship.

Our year-long program puts you in an intensive classroom training with people like Bill McKibben and other guest speakers. Then, you move to hands-on experience working with groups like Oceana, Corporate Accountability, The Wilderness Society and Mighty Earth to fight climate change, protect public lands and reform our food system. And when you graduate we will help you find a career with one of the nation’s leading environmental and social change groups.

The planet needs all the help it can get, especially now with so many protections under attack. To win now and build a strong foundation for lasting progress, we need people who know how to organize: to run organizations and campaigns that will inspire the support and action we need to save our planet.

We’re accepting the top 25 out of more than 1000 applicants for our 2019-2020 program. If you’re passionate about the environment and ready to learn and practice the craft of organizing, [click here] to apply.

Green Corps year long program begins in August 2019 with Introductory Classroom Training, and continues with field placements in multiple locations across the U.S. Candidates must be willing to relocate.
