Research Associate

Research Associate - Tepper School of Business-2011553

Job Summary

The Tepper School of Business is home to many programs and research programs that cross disciplines. We approach our work with a commitment to excellence, collaboration, and diversity. Our students and faculty come from a wide range of backgrounds, disciplines, and countries. Our research is conducted at the highest level, and our faculty are leaders in their fields.

We are seeking a skilled and motivated Research Associate. This is an excellent opportunity if you are planning to apply for a Ph.D. program in Business, Economics, or related fields. We offer the opportunity to work with and contribute to our research projects. You will work closely with Dr. Matthew Denes, Assistant Professor of Finance, Tepper School of Business.

Core responsibilities will include:

- Obtain and manipulate data from various sources
- Construct and analyze data using statistical software packages
- Assist with the production of working papers and publications

We are looking for someone who shares our values and who will support the mission of the university through their work.

You will demonstrate:

- Ability to work with statistics software, such as SAS or Stata
- Familiarity with programming languages, such as Python
- Ability to work independently to solve problems

This is a fixed term position for one year, with the possibility of extending through a second year.

We are targeting a start date no later than June 1, 2019.

Qualifications

- Bachelor’s degree in finance, economics, statistics, mathematics, computer science or related discipline.
