“Are Lawyers Unhappier than Other Professionals and Why?”

~~My research interests include applied microeconomic analysis of labor markets, health care, and education. I have published articles in the Journal of Human Capital, the Journal of Health Economics, and the Journal of Law and Economics. I am currently working on a book about the impact of health care on labor markets. I am also interested in the impact of health care on education. I am seeking RAs to assist me in gathering the existing data from numerous sources and then analyzing it.~~

Experience with Stata or willingness to learn.
