

The Labor Market Returns to College Major and Advanced Degrees

Faculty Member: [Joseph Altonji](#)

Proposal Description:

The goal of the project is to estimate the labor market return to particular fields of study at the undergraduate and graduate level. The study makes use of multiple NSF surveys. Estimation involves cross section and panel data regression techniques. The RA will help with data processing and regression analysis, construction of tables and figures, and literature review.

Requisite Skills and Qualifications:

Prior courses in statistics and econometrics and prior experience with STATA.

Award: Lewis Ho
