Econ 001a. Economic Ideas Worth a Nobel Prize

**Course Number:** Econ 001a  
**Day:** T, Th  
**Time:** 1:00pm to 2:15pm  
**Course Type:** Undergraduate  
**Course term:** Fall  
**Instructor(s):** Jose-Antonio Espin-Sanchez

This is a seminar intended for first-year students, and no prior knowledge of economics or statistics is assumed. The course will introduce students to a selection of ideas in the past 50 years that have merited a Nobel Prize in Economics. During each lesson the instructor will introduce the basic idea that merited the Nobel Prize and put it in historical context. Then the students and the instructor would discuss how the idea influenced the field at the time, and how it influenced economics today.

**Semester offered:** Fall  
**Undergrad Course Category:** Education  
Public  
**Course Description:** Course Description  
**Prerequisite List:** No prerequisites
