

Entrepreneurship and Careers

Faculty Member: [Tristan Botelho](#)

~~Entrepreneurship and Careers is a course that focuses on the application of economic theory to the study of entrepreneurship and careers. The course is designed for students who are interested in pursuing a career in entrepreneurship or who are considering starting their own business. The course covers a wide range of topics, including the economic environment of entrepreneurship, the role of government, the importance of innovation, and the challenges of starting and growing a business. The course is taught by Tristan Botelho, a faculty member in the Department of Economics at Yale University.~~

Coursework in statistics/econometrics, a basic knowledge of Stata, attention to detail, ability to work independently and an interest in conducting social science research. Web-scraping and textual analysis skills would be very beneficial.
