Economic Research Internship for Summer

Spend your summer working on economic social justice in India or Nepal! EPoD (Evidence for Policy Design) India at IFMR (Institute for Management and Research), in collaboration with Yale University’s Economic Growth Center and the MacMillan Center under the tutelage of Dr. Rohini Pande, work together to use economic frameworks and analytical tools to answer pressing policy questions and spur real-world change. We partner with policymakers to understand challenges to achieving policy objectives, design and test interventions, and share applicable insights from economic theory and empirics to more effectively deliver public services and improve the well-being of vulnerable groups. Current areas of research include gender and economic engagement (labor markets, technology, and financial inclusion); environmental policy, and governance.
