Econ 438a. Data Analysis in Politics, Betting Markets, and Sports

Day / time: M/W 1:00 - 2:15 pm  
Course Type: Undergraduate  
Course term: Fall  
Year: 2018  
Instructor(s): Ray Fair

Permission of instructor required

This course has an applied econometrics focus. The topics include voting behavior, betting markets, and various issues in sports. The requirements are two empirical papers. The first can be an extension of an existing article, where some of the results are duplicated and then extended. The second is a more original paper within the range of topics covered in the course, where data are collected and analyzed using whatever econometric techniques are relevant. A few of the lectures will be a review of econometric techniques.

Prerequisites: at least one semester of econometrics, preferably two

Semester offered: Fall  
Undergrad Course Category: Political Economy
