Econometrics I

**CRN:** 12633  
**Course Number:** 550  
**Department (unused):** ECON  
**Description:** Probability: concepts and axiomatic development. Data: tools of descriptive statistics and data reduction. Random variables and probability distributions; univariate distributions (continuous and discrete); multivariate distributions; functions of random variables and transformations; the notion of statistical inference; sampling concepts and distributions; asymptotic theory; point and interval estimation; hypothesis testing.

**Instructor Name (manual entry):** Donald Andrews  
**Instructor(s):** Donald Andrews  
**Subject Code (deprecated):** ECON  
**Subject Number (unused):** ECON550  
**Meeting Pattern (deprecated):** MW 10.30-11.50  
**Term Code:** 201903  
**Session (deprecated):** 01
