Topics in Empirical Economics and Public Policy

CRN: 11620  
Course Number: 556  
Department (unused): ECON  

Description:  
Methods and approaches to empirical economic analysis are reviewed, illustrated, and discussed with reference to specific empirical studies. The emphasis is on learning to use methods and on understanding how specific empirical questions determine the empirical approach to be used. We review a broad range of approaches including program evaluation methods and structural modeling, including estimation approaches, computational issues, and problems with inference.
