Inside the Next China

Subject Code (deprecated): ECON
Course Number: 338
Section Number: 01
Description: The transitional imperatives of the Next China take on new meaning in a post-pandemic, conflict-prone climate. This seminar offers a deep dive into this transition, with special emphasis on China’s AI-enabled push to indigenous innovation. Focus is also directed at reforms of debt-intensive state-owned enterprises as well as the development of a modern financial system and a fully-convertible currency. A rethinking of China’s relationship challenges, especially with the United States, is an over-arching theme of the seminar.
