Research Assistant

Criminal Justice Administrative Records System (CJARS) is seeking applications for a full-time Research Assistant position to join their diverse community of researchers. Within CJARS you will help build the next-generation criminal justice data infrastructure that will support evidence-based criminal justice policy-making and administration.

Responsibilities Include:

- **Data Science**: assist with data processing, and development/refinement of algorithms that will help to build the CJARS data infrastructure.
- **Research**: support various research projects and statistical reports by conducting reviews of current research, analyzing data, and writing summaries of research findings.
- **Software development**: develop, maintain, expand, and improve automation of currently existing web scraping infrastructure.

Jordan Papp, PhD

CJARS Project Manager

Population Studies Center
