Failure and Careers

Closed to further applications
Faculty Member: Tristan Botelho

Proposal Description:

Failure is a common outcome in most professional settings, yet we know little about the relationship between failure and careers. This project will involve cleaning and adding to data collected over the past year as well as some data analysis.

Requisite Skills and Qualifications:

The RA should have a strong interest in working with data, have taken at least two semesters of econometrics or statistics, and proficiency in Stata or R is preferred.
