ECON 433b. The Economics of Space

   Day / time: M/W 9:00 - 10:15 am  
Course Type: Undergraduate  
Course term: Spring  
Year: 2018  
Instructor(s): Costas Arkolakis

The aim of this course is to analyze the ways that space affects economic behavior. The course develops the required quantitative techniques to analyze detailed spatial information on economic activity and pairs them with simple models that determine how economic activity is allocated across space.

Prerequisites: Math 118 or 120 or instructor’s consent.

Semester offered: Spring  
Undergrad Course Category: Development  
Methodology  
Public  
Course Description: Course Description
