ECON 433a. The Economics of Space

Day / time: M/W 9:00 - 10:15 am
Course Type: Undergraduate
Course term: Fall
Year: 2018
Instructor(s): Costas Arkolakis

The aim of this course is to analyze the ways that space affects economic behavior. The course develops the required quantitative techniques to analyze detailed spatial information on economic activity and pairs them with simple models that determine how economic activity is allocated across space.

Prerequisites: Math 118 or 120 or instructor’s consent.

Semester offered: Fall
Undergrad Course Category: Development
Methodology
Public
Course Description: Course Description
