Undergraduate Research Assistant

Join the STEM Education team at the Poorvu Center for Teaching and Learning for an undergraduate internship this Fall!

Apply Online: tinyurl.com/poorvuresearchassistant

Job Description
The Yale Poorvu Center for Teaching and Learning is seeking a motivated undergraduate Research Assistant to help our vibrant STEM Team during the Fall of 2019. The STEM Education Team leads national faculty development initiatives that promote excellence in undergraduate STEM Education such as the Summer Institutes on Scientific Teaching (summerinstitutes.org). The Research Assistant will work closely with the STEM team to maintain the accuracy and integrity of the Summer Institutes data, manage routine website maintenance, and more, with the potential to contribute to ongoing research projects. The Research Assistant will receive training in a range of skills and programs relating to data management, STEM education, and evaluation.
