

PROPOSAL: MICROFINANCE AND OTHER POLICY EXPERIMENTS

Professor Dean Karlan, Department of Economics

<http://karlan.yale.edu/>

The research assistant will help analyze data from experiments in developing countries on microfinance and other policy experiments. The research assistant must either know Stata already or be comfortable taking on the task of learning Stata independently, and quickly.

Examples of projects include http://karlan.yale.edu/p/sme_consulting_mexico.pdf

And <http://karlan.yale.edu/p/eui13.pdf>, as well as several on savings experiments motivated by theories from behavioral economics, and work on persuasion and voting in the United States.
